FABRIC RETRACTABLE ROOF / OUTDOOR ROOM

MED ROOM

Gibus Australia
www.gibus.com.au

Create your own outdoor oasis with the Med Room. Available in leaning or freestanding styles perfect for adding additional space and value to your property. The unique design allows the fabric to be installed into the frame on a slight angle to ensure water drainage through the integrated post downpipes.

Each roof is custom designed to suit exact specifications and is available with integrated LED lighting to ensure entertaining can continue from day to night. Perfectly suited to commercial, residential or hospitality applications, including those in coastal areas.

FEATURES & BENEFITS

- Provides UV, heat & weather protection.
- Waterproof PVC fabric - available in a wide range of colours.
- Freestanding or wall fixed configurations available.
- Architectural design & finishing - streamline fixings to the wall & ground, no visible screws.
- Ability to protect large outdoor areas - multiple modules can be connected.
- Ability to be partially or fully retracted as required.
- Down pipes incorporated into posts.
- When fully retracted the fabric is protected by a colour matched aluminium cover plate.
- Tested to withstand winds that exert a maximum pressure of 110Nm or similar to a persistent wind speed of 49km/hr.
- Powder coat finishes available for aluminium frame & support bars – durable with superior colour retention.
- Motorised (240v tubular motor) with remote control.
- 5 year manufacturers warranty.
